

STAMPED CONCRETE

Advanced Stamp Color Hardener and Release Agents are available to create a tri-color surface. Two coats of clear sealer will protect the color and give maximum protection.

STAMPED CONCRETE RELEASE & HARDENER

STAMP RELEASE AGENTS

- Coverage: approx. 1,000 sq. ft. per 30 lb. pail
- Advanced release agent is a combination of hydrophobic materials, in a powdered pigment form.
- Used primarily in stamping concrete.
- Release agent allows the stamp to be removed without pulling or suctioning the concrete.
- Pigmented (Colored) release agent achieves a two-tone antiqued look when used with color hardener.

30 Lb. Pail

30 Pound Pail

Colors:	Item:
Charcoal	#405150
Clear	#405100
